

GBC Ezload Laminating Film

GBC Ezload Laminating Film is the ultimate solution for creating high-quality laminated documents. Compatible with the Ultima 35 and AutoUltima laminating machines, our premium brand Ezload Gloss laminating film rolls are designed to provide you with a hassle-free lamination process.

Features:

High-quality finish: Our Ezload Laminating Film rolls provide a high-quality gloss laminate finish, ensuring that your documents are protected and look professional.

Compatibility: Our laminating film rolls are compatible with the RollSeal AutoUltima and Ultima 35 Ezload Roll Laminators, providing you with flexibility and convenience in your lamination process.

Twin packs: Our Ezload Laminating Film rolls come in ready-to-use twin packs, colour-coded and equipped with male/female plugs to make loading fully error-free.

Various lengths: Our laminating film rolls are available in lengths of 30m, 60m, 75m, and 150m, ensuring that you have the right length for your specific needs.

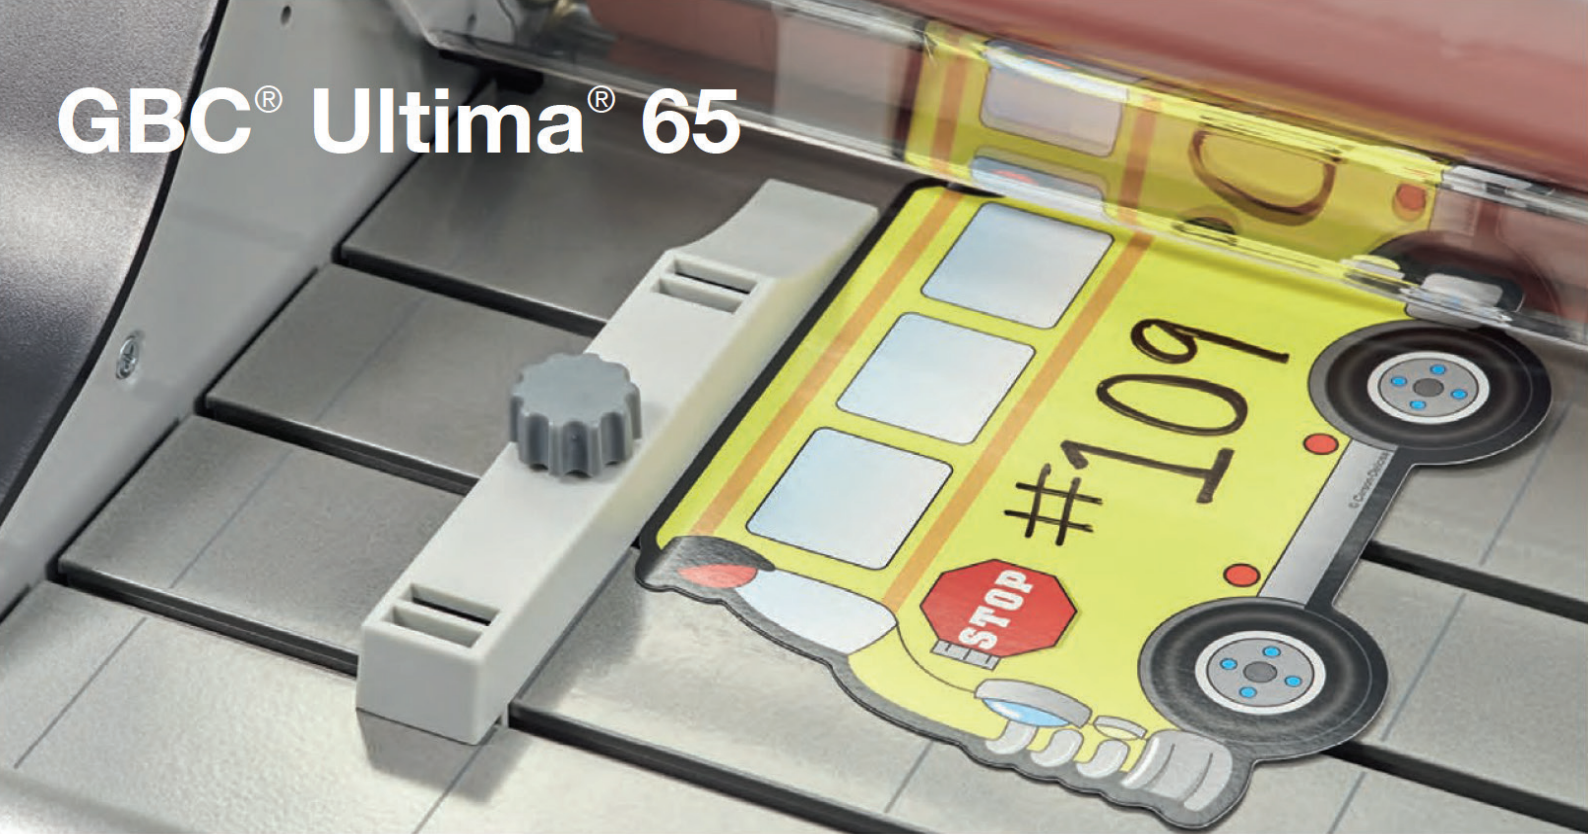

Different microns: Our laminating film rolls are available in various microns depending on the length of the roll, ranging from ultra-slim to heavyweight gauges.

Order your pack of GBC Ezload Laminating Film today and take the first step in creating high-quality laminated documents. With our color-coded twin packs and male/female plugs, you can be confident that your loading process will be error-free. Our laminating film rolls provide a high-quality gloss laminate finish, ensuring that your documents are protected and look professional.
